

SPONSOR INFORMATION

2024

Digital Fusion is a community based First Robotics Competition team from Westerville, OH. We meet at The Point located on the campus of Otterbein University. As a small team, our students are exposed to all aspects of creating a successful robot. Our team employs an Engineering Design Process that we have honed over number of seasons.

FOSTERING YOUTH INNOVATION SINCE 2003

Since 2003, Educational Robotics of Central Ohio and FIRST® Team 1317, "Digital Fusion," has been inspiring young people to be science and technology leaders and innovators, by engaging them in exciting mentor-based programs that build science, engineering, and technology skills, that inspire innovation, and that foster well-rounded life capabilities including self-confidence, communication, and leadership.

INSPIRING S.T.E.M. THROUGH MENTORSHIP & COMMUNITY OUTREACH

Each year, the students of Digital Fusion design and build a robot to compete with other robots from around the world. This team, of up to 25 students, also inspires interest in STEM (science, technology, engineering, and math) through community outreach events with younger students.

SPONSORSHIP OPPORTUNITIES

YES! WE ARE PROUD TO SUPPORT THE 2024 FIRST ROBOTICS DIGITAL FUSION TEAM 1317!

\$2500 SPONSORSHIP
